- ▶ **Have you ever encountered obstacles in achieving your career goals?**
- ▶ **Would you benefit from coaching in overcoming career barriers?**
- ▶ **Would you like to find out more about your own personal leadership strengths?**
- ▶ **Would you like to be part of the solution to building more cooperative and collaborative school leadership systems?**

WLiEYH and WomenEd local networks for Bradford and Craven have 'teamed up' and are offering a programme of 'Leadership Surgery' events that provide teachers with an opportunity to gain free professional coaching and advice on pursuing leadership goals and overcoming barriers to personal growth. WLiEYH and WomenEd would like to invite you to our local network event where you will develop an awareness of your own personal leadership strengths and barriers through taking a leadership diagnostic assessment, which will then advise you on how to capitalise on your strengths.

The networking event will also invite you to realise your own personal biases in our roles as current or prospective school leaders and, as part of this reflection, you will consider your own experiences of school leadership cultures. Other workshops will also aim to inform you on the most up-to-date research on leadership theory, with a particular focus on how to create cooperative, inclusive and collaborative leadership cultures within our institutions.

This programme of events will culminate in the summer term with a 'Coaching Roadshow', where delegates will be able to access a session with a personal coach for free, as well as finding out in a 'marketplace' event about coaching cultures within schools.

This programme of events is open to all school colleagues, whether a new or recently qualified teacher, considering future aspirations in school leadership, or established school leaders from entry level leadership to Headteacher.

We look forward to welcoming you at Skipton Girls' High School for what promises to be an enlightening experience.
