FREE Teacher Subject Specific Training

PHYSICS

IOP Institute of Physics

Do you have non-specialists teaching Key Stage 3/4 Physics?

The TSST is a fantastic opportunity to upskill teachers in the teaching of Physics across all key stages. This year, the TSST Physics is a blend of ‘live’ remote sessions and pre-recorded sessions. The pre-recorded sessions and tasks can be accessed at your own pace. We intend to host two face-to-face practical workshops, although participants can complete a practical portfolio instead. Full details of the sessions and tasks will be provided to eligible participants on enrolment.

Benefits to Participants

- Improved confidence teaching across all age ranges
- Improved knowledge of the GCSE specification
- Effective strategies to increase pupil progress
- Development of effective pedagogy within the classroom

Information

The themed live sessions are scheduled as follows:

- **Forces & Space**
  - Tuesday 7th July @ 16:00 - 17:30
- **Energy & Matter**
  - Wednesday 8th July @ 16:00 - 17:30
- **Electricity**
  - Thursday 9th July @ 16:00 - 17:30
- **Waves & Radiation**
  - Tuesday 14th July @ 16:00 - 17:30
- **Maths in Physics**
  - Wednesday 15th July @ 16:00 - 17:30
- **Practical Work**
  - Thursday 16th July @ 16:00 - 17:30

These sessions will be repeated in October

- **Forces & Space**
  - Tuesday 6th October @ 16:00 - 17:30
- **Energy & Matter**
  - Wednesday 7th October @ 16:00 - 17:30
- **Electricity**
  - Thursday 8th October @ 16:00 - 17:30
- **Waves & Radiation**
  - Tuesday 13th October @ 16:00 - 17:30
- **Maths in Physics**
  - Wednesday 14th October @ 16:00 - 17:30
- **Practical Work**
  - Thursday 15th October @ 16:00 - 17:30
